

## SpaceX Launch Viewing for NASA Alumni League Saturday, February 18th at 10 a.m

### PLEASE RESPOND ASAP IF YOU ARE INTERESTED IN ATTENDING

Delaware North has reserved 20 slots for our members to attend the first SpaceX launch from Cx 39A at 10 a.m. Saturday, February 18th.

**THE FIRST PEOPLE TO RESPOND BY EMAIL TO THIS NOTICE  
WILL BE INVITED.**

**EMAIL ME AT [ALKOLLER@GMAIL.COM](mailto:ALKOLLER@GMAIL.COM): RESPOND YES WITH  
YOUR NAME AND EMAIL ADDRESS. I WILL CONFIRM.**

Details on arrangements are forthcoming, but we need to arrive between 8:15 and 8:30 for transport to a VIP viewing area to see that launch. Don't be late! This should be a good one, carrying materials to ISS and including a first stage return to the launch site for landing.

Witness the first launch from Kennedy Space Center's Launch Complex 39 since 2011! The [SpaceX](#) Falcon 9 rocket launches from LC-39A carrying the Dragon spacecraft on a resupply mission to the International Space Station (ISS). This is the 10th of 14 resupply missions by SpaceX for NASA in support of NASA's Commercial Resupply Services (CRS) program. Dragon will deliver food and supplies to the crew aboard the ISS. The Falcon 9 rocket's reusable first stage will attempt a controlled landing on Landing Zone 1 (LZ1) at Cape Canaveral Air Force Station.
